

**Baggage Handling  
Experts**

## SPECIALISED EXPERTISE

Fast Automation understands the need to specialise and has specialised in Baggage Handling Systems consultancy. Having successfully managed, and been a significant influence in the delivery of some of the most challenging projects in the world we are qualified to assist at any level of a BHS project.

# BAGGAGE HANDLING SYSTEM CONSULTANTS

## ABOUT US

Fast Automation has built a wealth of independent expertise in baggage handling systems. From pre tender to mature system improvements, from automatic bag drop to make up loop, from ATR to high level reporting systems, we are sure we can add value to any BHS related system.

Fast Automation is an ISO9001 Quality Accredited company and operates a robust and practical V Model methodology and compliance system to all activities.
